

CRESTRON VIDEOBAR 70

Put high-performance hybrid meetings front and center.

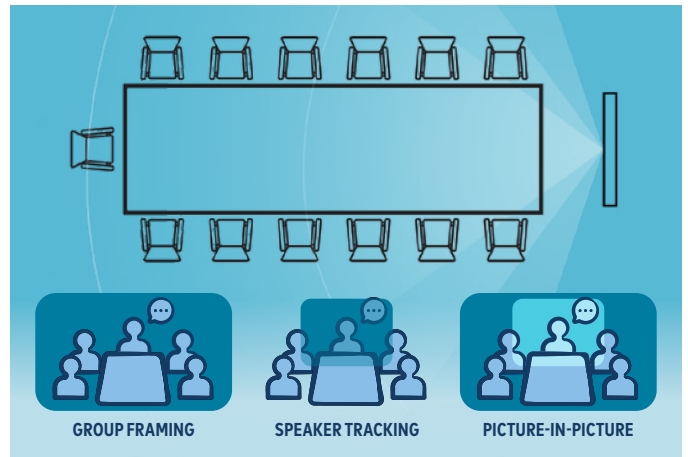

All-in-one video collaboration bar for medium-to-large rooms. The Crestron Videobar 70 is packed with everything you need to deliver hybrid meeting equity in medium and large spaces — including the latest audio and intelligent video technology, plus the Android™ OS allows for easy deployment.

- Creates premium meeting experiences in medium and large rooms
- Four high-resolution cameras with intelligent video capabilities
- Powerful audio array captures every word and sends sound throughout the space
- Quick to deploy with Android™ OS and plug-and-play simplicity

Have room-filling audio

Stereo speakers fill the entire space with rich audio. 24 beamforming microphones reduce noise and pick up voices from even the furthest point in the room.

Get the full range of intelligent video

Four high-resolution cameras with group framing, speaker tracking, and picture-in-picture capabilities find the best possible view — even when the person speaking is 30 ft. (9m) away from the camera.

Go from 0 to 70 in seconds

Videobar 70 lets you just set up and go. Power the device, connect to the network, plug in displays, and the room is ready. A single cable connects your touch panel for one-touch meeting join and control.

Ready for the next meeting. And the next generation.

With the compute power for today's meetings and tomorrow's innovations, Videobar 70 lets you take full advantage of Microsoft Teams® Rooms and Zoom Rooms® teleconferencing systems long into the future.

Wide angle camera
captures whole room

3 narrow FOV cameras.
capture speakers in high resolution
