A full-featured, integrated video conferencing system for the executive office and remote offices

The Polycom VSX 3000 is a stylish and compact video conferencing system that provides excellent video and audio quality. Featuring an integrated LCD screen, the Polycom VSX 3000 is the perfect video conferencing solution for executive suites and remote offices. As a fully integrated video conferencing system, the Polycom VSX 3000 delivers powerful video and audio performance and can act as a PC display when not in a video call—saving valuable desk space.

The Polycom VSX 3000 addresses the needs of executives by enabling business-quality video conferencing directly from their office, eliminating the need to attend personal video conferences from a large meeting room. The Polycom VSX 3000 helps off-site professionals such as regional sales representatives communicate easily with the home office. Consultants are able to stay in touch with corporate headquarters for training, meetings or face-to-face contact without the investment or space required for a group video conferencing system, or the continuous cost of travel.

The Polycom VSX 3000 offers exceptional video with H.264 video technology and near CD-quality audio with Polycom Siren 14 and Polycom StereoSurround. PC based content can be added to a VSX 3000 conference call cable-free by using the People+Content IP software option. You can also add a document camera or VCR/DVD to display pictures or movie files during a conference. And no matter what kind of content is sent, the conference participants can see both the presenter and the content simultaneously with Polycom Dual Monitor Emulation.

In today’s Internet-driven world, the ability to conduct real-time communication and collaboration has become critical to an organization’s survival. As the market leader in voice, video, data, and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity—over any network, in numerous environments, anywhere around the globe. That’s why more organizations worldwide prefer using Polycom conferencing solutions. Because when people work together, great things happen.
