

Cable Cubby 100

CABLE ACCESS ENCLOSURE FOR AV CONNECTIVITY AND POWER

The **Cable Cubby® 100** is a compact, furniture-mountable cable access enclosure for AV connectivity and AC or USB power. Its convenient round design eliminates the need to measure or use a routing template, making installation quick and easy using a standard four inch hole saw. The space-saving design is ideal for lecterns or any application where a single user access point is required.

- ▶ Powered versions accommodate one unswitched AC power outlet or two USB power ports and two MAAP™ Mini AV Connectivity Modules, one Retractor Series module, or three AV cables
- ▶ Non-powered versions accommodate up to four MAAP modules, or three AV cables and two MAAP modules
- ▶ Unique, split ring design allows cables to be installed or serviced from the top of the enclosure before or after installation
- ▶ Fast installation with standard 4" (102 mm) round hole saw
- ▶ Available with USB or AC Power Modules for US, Europe, and other major world markets

DESCRIPTION

The **Cable Cubby® 100** is a compact, round furniture-mountable cable access enclosure for AV connectivity and AC or USB power. Ideal for single-user applications, it has connectivity openings for two single-space MAAP™ Mini AV Connectivity Modules, one Retractor module, or three AV cables. The Cable Cubby 100 enclosure without power holds an additional two MAAP modules. The Cable Cubby 100 Switch Kit includes an integrated push-button switch for Show Me®, push to talk, or mute mic applications. Cable Cubby 100 enclosures are designed to allow service of cables and MAAP modules from the top after installation. Its round shape makes installation fast and simple using a 4" (102 mm) hole saw. A cover plate conceals mounting screws, giving a refined appearance. The Cable Cubby 100 is available in black.
