ROOMZ

Optimize the use of your meeting rooms

Once installed, you will immediately start using your shared spaces more efficiently. ROOMZ will eliminate guesswork in corridors by displaying the accurate booking information right in front of the meeting room. Furthermore, its configurable touch panel allows you to book and release meeting rooms on the spot.

A large 8" paper-like display with great readability over the full 180° viewing angle

EASY INSTALLATION
No cabling, no drilling – ROOMZ is installed within minutes and connects using your existing Wi-Fi network.

INTUITIVE USER INTERFACE
The user interface has been conceived so that any user can quickly read and interact with the screen.

EVERY DETAIL MATTERS
ROOMZ can be installed in a shared workspace or in a hallway of meeting rooms. The combination of a paper-like display inside a quality aluminium frame makes it a very elegant solution.

ADAPTED FOR ALL SURFACES
Whether it is on glass, wood or stone, ROOMZ fits perfectly and easily.

ROOMZ fits your needs

ROOMZ

CLEAR AND PRECISE INFORMATION

Easily check the reservation state of a room, the name of the organizer, the title and the duration of the upcoming meetings.

MULTI-VIEW

Switch from daily to weekly view.

TOUCH PANEL

The main functions allow you to interact with ROOMZ. To book a room spontaneously, simply press *Book* and then select the duration. To release a room press *Release* and then *Confirm*.
