

LifeSize[®] Digital MicPod™

LifeSize Digital MicPod brings crystal-clear audio to even the largest collaboration spaces.

In addition to a pro audio 48 kHz sampling rate, LifeSize Digital MicPod reduces ambient room noise and features beam-forming technology that automatically steers its three microphones toward the person speaking for greater voice pickup.

Touch-sensitive mute button and “Mute” and “In-Call” LED indicators round out the user-friendly features that make LifeSize Digital MicPod a clear-cut choice for organizations that need to extend the audio pickup range of LifeSize Phone.
