

COMM-TEC

COLLABORATION HUB

- The complete solution for your conference and huddle room
- Spontaneous collaboration made easy
- Annotation and whiteboard capabilities for all content – wired or wireless
- Intuitive touch interface powered by smartPerfom
- Audio and video conferencing out of the box and easy to use

COMM-TEC Collaboration Hub

Complete solution for your conference and huddle room

- Capacitive 70" Touch Display
- IR-True Flat 55" Touch Display
- Elegant design
- 2 built-in Full HD cameras
- 30 W built-in speakers and 4 microphones
- Built-in PC
- Intuitive GUI
- Network connection via LAN
- Windows 10® - License included

The especially developed GUI for the COMM-TEC CollaborationHub provides users with an intuitive interface. smartPerform offers seamless integration of external HDMI sources (e.g. wireless presentation system Barco ClickShare or Lumens document camera), which can be displayed and processed parallel to PC applications. Fully automatic as a desktop window – without switching!

- Innovative multi-window presentation of all kinds of file formats and external live sources
- Seamless integration of applications like Videoconferencing, MS Office or Internet Browsers.
- Access to LAN and software applications like SharePoint
- Annotation and whiteboard capabilities for all media formats

Add-Ons

The Huddle Space solution by COMM-TEC is ideally complemented by Vidyo Desktop Videoconferencing, the wireless presentation system Barco ClickShare or the document camera Lumens DC-192. We offer you perfectly matched support solutions by CHIEF or SMS

Vidyo Desktop Video conferencing
(Software pre-installed)

Barco ClickShare CS-100

The easy-to-use wireless presentation system

Mounting Solutions

The right grip for optimal teamwork

Lumens DC-192

The black beauty among the document cameras
