

Designed for anywhere people share information, connect with technology or command a space

# Crestron 70 Series Touch Screens

## Experience responsive, dynamic, and intuitive control

- ✓ Proximity Sensor detects motion and awakens screen upon approach
- ✓ Faster processing for a smoother, more responsive experience and frictionless scrolling
- ✓ Sharper screen resolution that communicates with perfect clarity
- ✓ As dynamic as any smart device. Matching experience with expectations

## Express your identity and preferred experience

Development flexibility from out of the box to highly customizable:

### Out of the box

All touch screens natively support Crestron Flex UC, Room Scheduling and residential applications right out of the box.

### Configurable

Deploy a consistent user experience with Crestron .AV Framework™. Showcase brand identity. Customize icons, background, logos and screen savers.

### Customizable

Build a completely custom UI using HTML5 or VT Pro-e®. Build on web based standards with easy, reusable components.

**Crestron 70 Series Touch Screens. Reach for the best today.**

## Connect form to function – flawlessly

Wi-Fi capabilities and PoE+ installation for maximum flexibility and convenience

Bluetooth® beacon enables touchless room control from mobile devices via the Crestron ONE™ app

Every touch screen offers a full range of security standards including 802.1X, TLS, FIPS-140-2, SSH, and SFTP

## Deliver your commands remotely and at scale

Crestron XiO Cloud®. A cloud-based management platform that enables:

- ✓ Remote control of any screen
- ✓ Mass room deployment and management
