

DEKOM Executive Series II

TELEPRESENCE FOR YOUR CONFERENCE ROOM

The DEKOM Executive Series II enables an uncomplicated videoconferencing integration in any conferencing room. With the Executive Series II you perform at the highest stage. For an easy access to the devices the aluminium casing can be opened on the backside.

The Executive Serie II is available as a single- (for 46" to 100") or dual- (for 42" to 65") display variant and adaptable to any room size. A three step-height adjustable also ensures a optimal screen height.

Did you know?

In today's world videoconferencing systems are part of a sound business strategy; they cannot be ignored because they both reduce costs and create an environmentally favourable public image.

These cost savings and the reduction in the use of fossil fuel resources are considerable and an important factor in business planning for companies of all sizes. This leads to higher profitability and adds greater value for all stakeholders over the long term..
