Innovation inspired by you

Adapt your meeting room solution to your business!

i3HUDDLE 3.0

Today, presentation, video conferencing and collaboration are growing together. The i3HUDDLE 3.0 combines the different requirements of these three areas in an intuitive display, which can be fully adapted to the needs of your business.

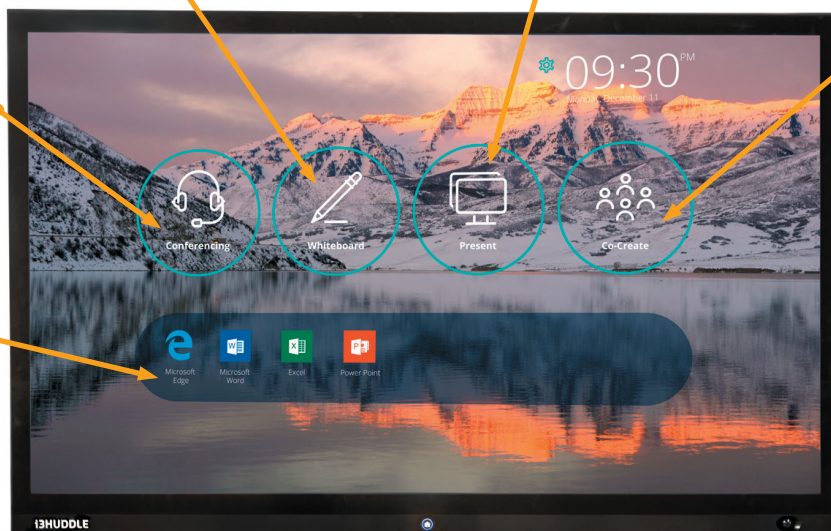

Present wirelessly from your PC, tablet or smartphone, independently from the operating system.

Open virtual meeting rooms and collaborate with your remote colleagues on documents.

Easy whiteboarding.

Install the video conferencing solution that your business has invested in.

Add your favorite programs that you use during meetings.

Home button for easy navigation.

The motion sensor automatically turns the i3HUDDLE on and off to save power.
