

Polycom® PVX™

The ultimate PC conferencing software application

Benefits

Best Audio and Video – Crisp, sharp H.264 video technology and CD-like audio quality with Polycom Siren™ 14 audio

Powerful Software Application – The industry's best performing video conferencing application works in conjunction with your PC and USB camera at call speeds up to 2Mbps

Enhanced Features – Integrated AES encryption for secure calls and People+Content™ for simultaneously sharing XGA resolution content and high quality video

Maximum Flexibility – Video application resides on your laptop and works with standard USB cameras, Polycom's ViaVideo® series cameras or operates without a camera in ViewOnly mode

Easiest to use – User-friendly and customizable graphical user interface makes video conferencing a breeze and provides maximum user flexibility in 11 languages

The Polycom Solution – All Polycom conferencing and collaboration capabilities, including Polycom WebOffice™, Polycom Global Management™ Server and Polycom PathNavigator™

Advanced software application delivers Polycom's premium quality audio, video and content sharing to your PC and standard USB camera.

Polycom PVX brings unprecedented video conferencing technology to your desktop PC with the first software application ever offered by the industry leader. Utilizing the industry's highest quality audio/video algorithms, Polycom PVX is the only PC application to offer both secure communications and People+Content™. The application supports most standard Webcams, thereby eliminating the need for a separate video camera and reducing clutter in your workspace. And when used in conjunction with your laptop and portable USB camera, Polycom PVX provides the ultimate in portability.

For users of group conferencing systems, the premium performance and advanced features of Polycom PVX will perfectly complement larger room systems while maximizing end-to-end conferencing and collaboration quality. The graphical user interface delivers a rich feature set, including:

- Sizable and detachable video windows for personal desktop layout supporting local video, remote video, and content video
- Intelligent call directory with search capability to quickly locate and call other end users
- Multiple location profiles simplify network connectivity from home, office and travel locations
- Continually monitors system and network for errors and alerts end user of status changes
- Intuitive navigation with context sensitive help screens, embedded user manual available in 11 languages for ease of use and fast adoption
- Multiple monitor support adds richness to conferencing and PC collaboration
- Web user interface enables remote management and monitoring from Web browser

The iPriority™ features of the Polycom PVX enable your PC to deliver high-quality video conferencing over IP networks. And as an integrated component of the Polycom Office™, Polycom PVX gives your PC the ability to conduct one-to-one or one-to-many communications in offices, home offices or small businesses. Bring remote colleagues, offices and telecommuters together easily and affordably with the Polycom PVX conferencing software application.

Your software of choice for content sharing to access the power of Polycom's unified collaborative communications solutions.

With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience. Our market-leading conferencing and collaboration technologies, supported by world-class service, ensure that people and organizations maximize their effectiveness and productivity. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for organizations seeking a strategic advantage in a real-time world.
