

PODCAST STUDIO

Capture and streaming made simple.

CAPTURE

Your presentations automatically.
Speaker and slides are both
recorded in full quality.

SHARE

Your videos on your
website or intranet, YouTube,
USB, devices, MediaServer...

APPLICATIONS

Start digitising your teaching, training and communications with the Podcast Studio.

EDUCATION

- Allow teachers to autonomously create content and share it via your LMS platform.
- Easily create content to flip the classroom from your PC or Mac.
- Live stream your lectures to multiple classrooms (local streaming).

CORPORATE

- Easily and quickly produce eLearning modules.
- Create short video messages for your website or intranet: breaking news, new processes, etc.
- Use an innovative tool to communicate internally: CEO greetings, HR information, etc.

Why create videos with the Podcast Studio?

AUTOMATED

A single button solution to capture, produce, convert and publish.

CUSTOMISED

Your content's branding (logo, intro clip, etc.) and production (dynamic transitions) are automated.

EVERYTHING YOU EXPECT FROM PROFESSIONAL VIDEO

HD QUALITY

Slides are perfectly readable

UNIVERSAL ACCESS

View on any device
